

Answers to Practice Exercises for Chapter 7 – The Four Rules for Larger Numbers

Set A - Question 2

Lay it out like this.

$$\begin{array}{r} 209 \\ 96 \\ \hline \\ \hline \end{array}$$

First add the units column: $9 + 6 = 15$, write down the 5 and carry the 1 into the tens column.

$$\begin{array}{r} 209 \\ 96 \\ \hline 5 \\ \hline 1 \end{array}$$

Now add the tens column: $0 + 9 + \text{the carried } 1 = 10$, write down the 0 and carry the 1 into the hundreds column.

$$\begin{array}{r} 209 \\ 96 \\ \hline 05 \\ \hline 11 \end{array}$$

Finally, add the hundreds column: $2 + \text{the carried } 1 = 3$.

$$\begin{array}{r} 209 \\ 96 \\ \hline 305 \\ \hline 11 \end{array}$$
